

CYBERG

next ➤

CyBERG Corp. Plc. – A technology company listed on the Budapest Stock Exchange. CyBERG's vision is to develop internal products and support external innovations, which help to connect physical and digital spaces.

DIGITAL PRODUCTS

INTERNAL

AnyUpp

- Order and payment in HoReCa
- MVP is launched, scaling has just started

AnyHome

- PropTech know-how and network is building
- Real estate pilot project has been started
- NFT – tokenization, digital art

*CYBERG is a **powerful story and a role model.**
We **magnetize** start-ups, innovators and investors.
There are **many more ideas** in our network.*

EXTERNAL

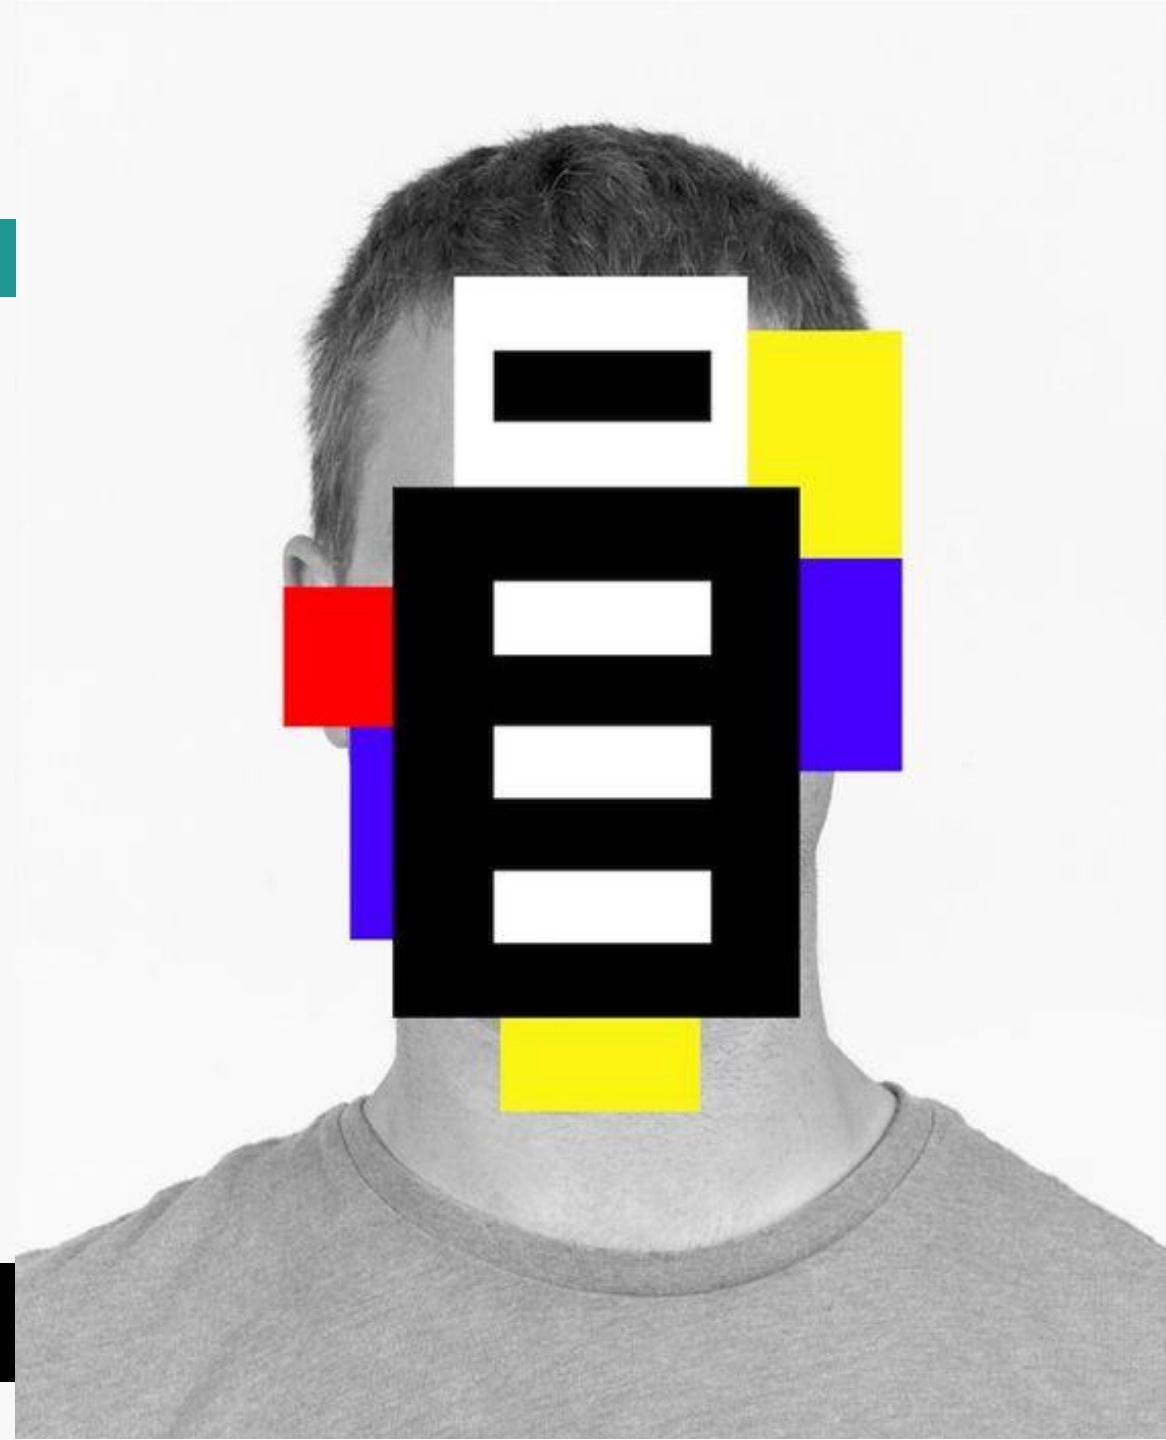

Upps

- Digital couponing and direct marketing
- Focus on local small and micro retailers

dicomLAB[®]

- Digital solution for doctors by providing a plug and play solution for their implant vendors and dental lab partners

➤ CYBERG turns into an innovation platform

MARKET INSIGHT

Lack of tech know-how

Our world is changing fast but technologies are changing even faster.

Failure of building efficient teams

Innovation needs today a complex skillset.

Group of people is not necessary an efficient professional team.

No possibility to recycle the team.

Inadequate access to funding

Lack of network and know-how.

Lengthy fundraising turns attention away from operational progress.

**NEXT
LEVEL OF
CYBERG**

INNOVATION AS A SERVICE

We look for **changemakers** and give them

- education and expert pool (PRODUCT)
- access to capital (FUNDING)
- network and visibility (MARKET)

to build their own **successful** company.

FOCUS

People can call us
lab/hub/incubator/accelerator
but we are more like a **production facility**.

Focus on

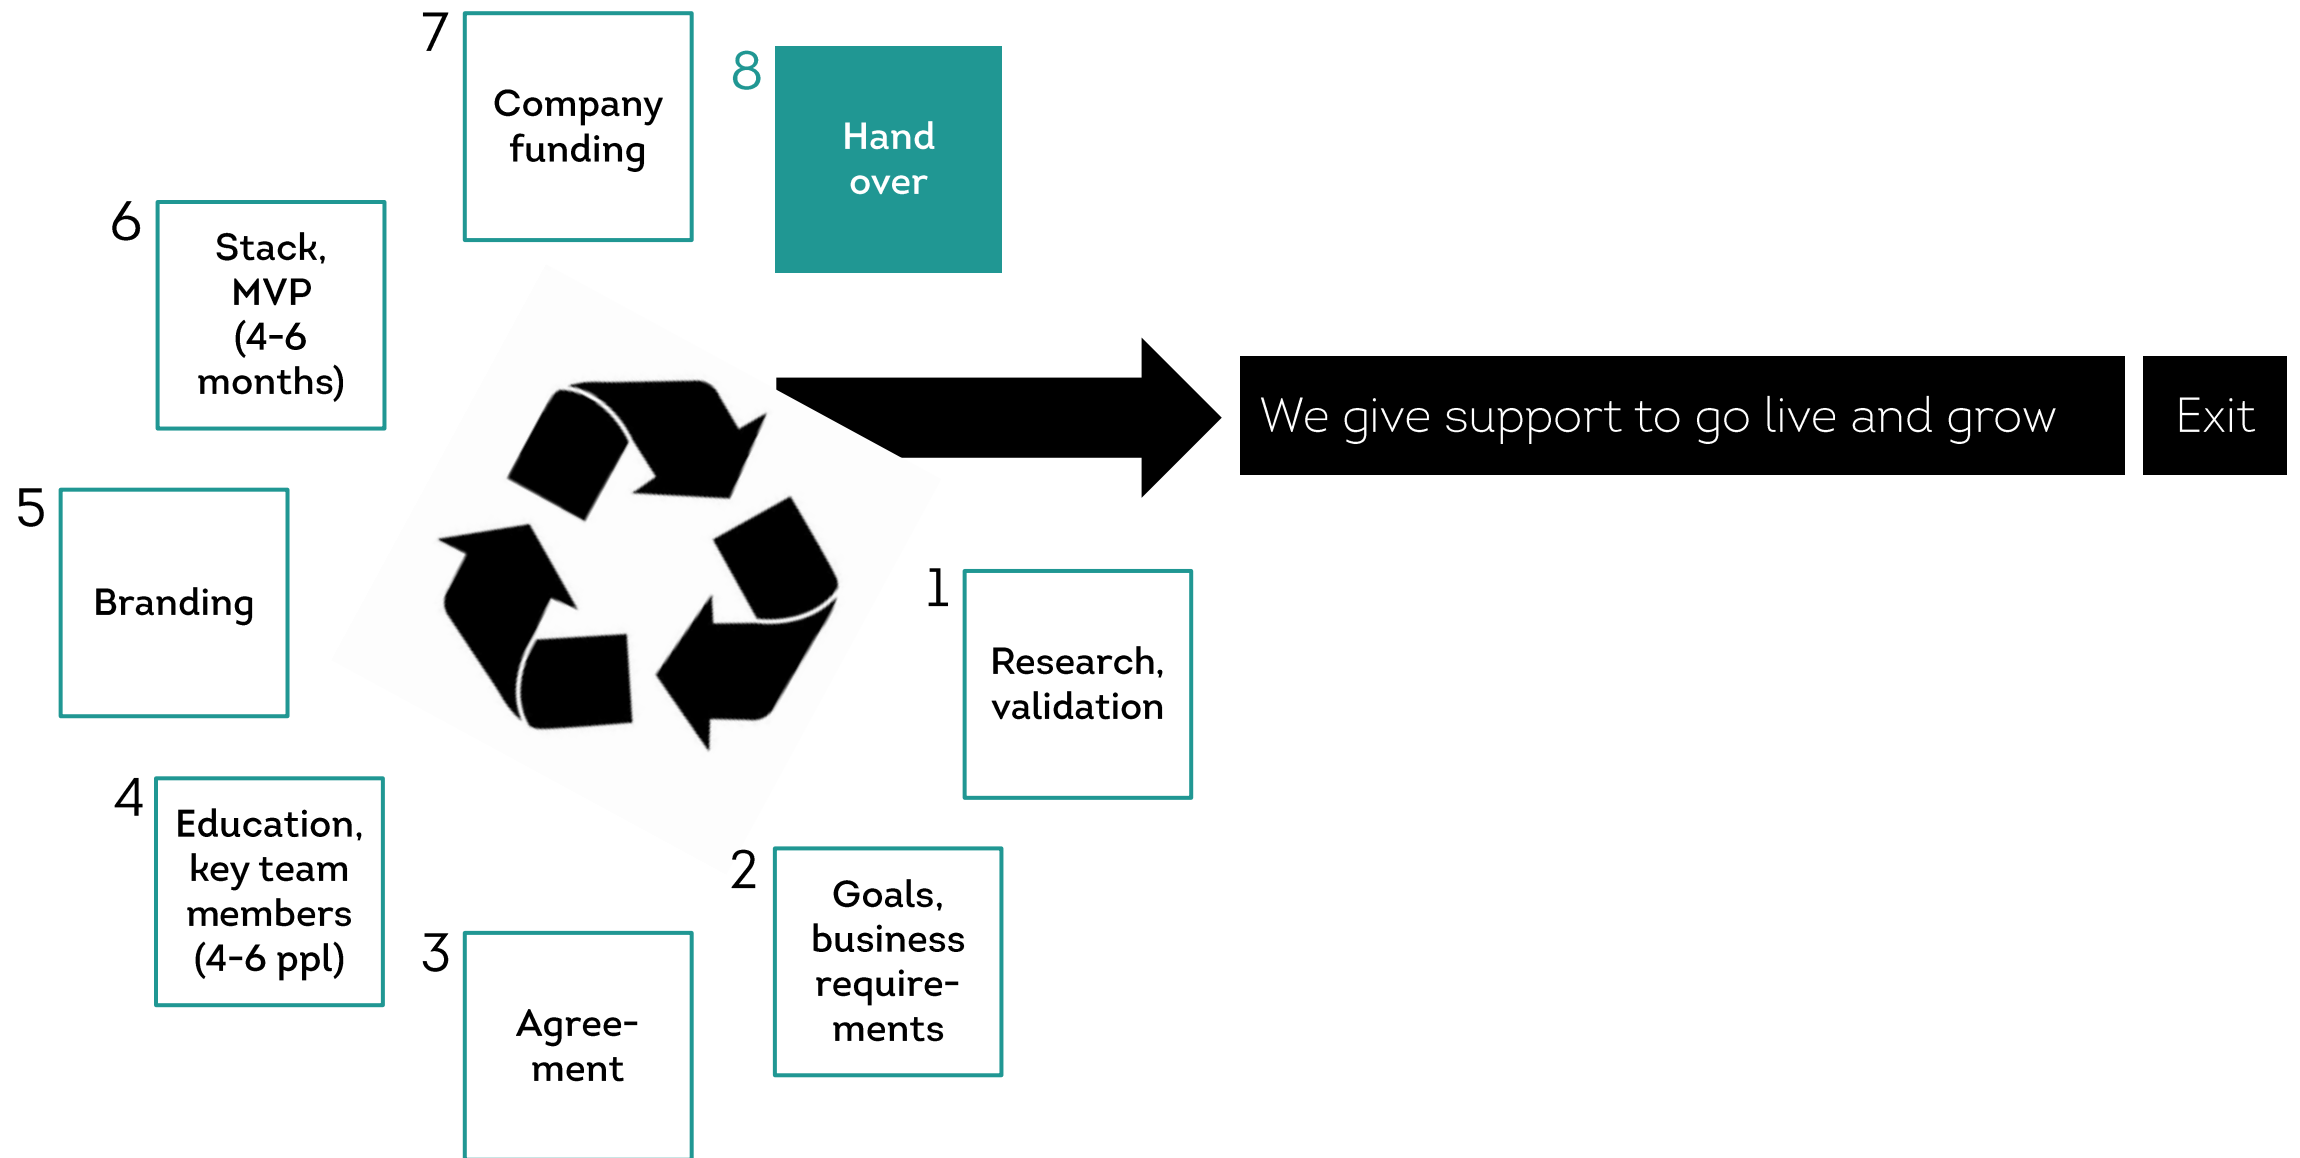

DIGITALIZATION

DATA

Inno vation

F A C T O R Y ➤

CYBERG's INNOVATION RECYCLING

USP

EXPERIENCE

Public company with start-up mindset and skillset, personal track records

EFFICIENCY

Ready-to-action professional teams, possibility to recycle know-how and teams

ENGAGEMENT

More information about startups when we work in depth on their projects. Trust building.

FLEXIBILITY
